ENERGY | RECOVERY | STAMINA

ENDURANCE

KEY BENEFITS:

ENERGY AND
ENDURANCE

FASTER RECOVERY
AFTER EXERCISE

BETTER PH
BALANCE

Price:

(60 CAPSULES) \$36 USD/\$45 CAD

(120 CAPSULES) \$65 USD/\$81.20 CAD

Save 5% on SmartShip!

HOW TO USE:

For best results, take two capsules with eight ounces of water. An additional dose can be taken as needed.

KEY INGREDIENTS:

Negatively charged hydrogen, encased in minerals.

RUN STRONGER, LONGER

What if the key to healthy energy is actually the smallest element in the world? They say good things come in small packages, but it still sounds a little crazy, right? We thought so too... so we spent hundreds of thousands of dollars testing it, gave it to doctors and elite athletes, and watched the results pour in.

- ✓ Its antioxidant activity was proven
- ✓ It was shown to balance pH and hydrate the body
- ✓ Athletes raved about their newfound energy

What is this tiny but mighty magic? It starts with negatively charged hydrogen. Take a quick trip back to high school science class for just a minute where we all learned that hydrogen is the smallest element.

Now remember that electrons carry energy. They also neutralize positively charged molecules called free radicals that threaten to damage our cells and accelerate the signs of aging. When you add an extra electron to hydrogen, you can pack loads of these negative charges into a capsule. Hello younger you!

Endurance is a powerhouse antioxidant because it contains more neutralizing charges than any other product. These electrons also generate energy within your cells which means you can exercise longer and recover faster all while slowing down the signs of aging.

Supplement Facts

Serving Size: 2 Capsules
Servings Per Container: 30 (60 Capsules)
Servings Per Container: 60 (120 Capsules)

Amount Per Serving	% Daily Value**	
Vitamin C (as magnesium ascorbate)	30 mg	50%

Endurance (a Proprietary Blend)	600 mg	†
Potassium carbonate, potassium citrate, magnesium ascorbate, calcium silicate, water, calcium hydroxide, magnesium sulfate, mannitol, silicon dioxide, sunflower seed oil, sodium borohydride, mineral oil		

† Daily Value not established.

** Percent Daily Values are based on a 2,000 calorie diet.

Other Ingredients: Rice flour, vegetable capsule (hypromellose, titanium dioxide), rice oil, magnesium stearate
